

**“Simple but profound.** Loved this book. With simplicity and ease Darlene Dawn presents profound spiritual principles from the standpoint of someone who has survived addiction and all the issues that accompany it. Her personal journey to recovery led her into new and higher ways of dealing with the common but often painful life issues everyone faces. The book does not simply present comforting words, but explains in easy to understand language how to practice and actually move beyond much of what holds so many in bondage to lack and limitation in all its forms. Building from the principles of AA, she leads the reader to much deeper levels, sharing herself (warts and all) in order that anyone seeking a deeper way of living life, may grow and evolve their personal journey as well. "Inner Connections" is definitely not just for people working their way through some sort of recovery, but is a treasure chest of deep spiritual principles written in easy to understand language for anyone seeking to understand what living on earth is all about.” —Marilyn/www.Onenessofall.com

“... It was very courageous of you to share so much personal stuff, and I feel sure that many readers will be mightily relieved to discover that they are not strange or insane, and that their *own* experiences are really not too different from those of many, many others! Everyone has personal/emotional/painful/shameful issues to deal with, but many have *no one* with whom they feel safe enough to talk about them. I am sure that your book *will* bring comfort to many.” —John Smallman, *Jesus through John* blog: <http://johnsmallman2.wordpress.com>

“Darlene Dawn has written a delightful book filled with truly inspirational instruction in overcoming addictive behavior, turning crashing and burning into awakenings and liabilities into assets. She has found a way to experiencing a deeper level of connectivity, through the development of a relationship with a Higher Power that is there inside each of us if we simply have the courage to look within for answers.” —Jon Mundy, Ph.D. author of “Living A Course in Miracles”

*The Inner Connection* by Darlene Dawn is an amazing, soul opening book! I found myself experiencing "chills" several times as I was reading ... Darlene's experiences and message were that powerful. Early on, this phrase caught my attention: "If you embrace spiritual ideals yet have trouble consistently living them, then this book is for you". "Well," I thought, "That certainly describes me!" I resonated so much with Dawn's experiences in addiction and what I would call "lower level living", and I yearn deeply for the peace and freedom that her years of sobriety, plus her Inner Connection, have brought to her life. I am so very grateful that she chose to write this book and share her story with all of us who are seeking more than just what our physical lives supply. Wonderful! I received a free copy of the book in exchange for an honest review.
